Summary

I am a dedicated graduate with strong organizational and logistical skill with a passionate interest in software development. I undertook and completed a digital skills bootcamp with JustIT where I gained proficiency in python, HTML, CSS, JavaScript and MySQL, through Multiple Hands-on projects such as creating a web portfolio. In addition, I also attended another bootcamp with Games Academy where I was able to enhance my team collaboration and project planning skills by working with multiple different groups to work on separate projects or presentations about specific topics.

Furthermore, working at NHS and BROWN AND ILLINGWORTH allowed me to develop and hone my planning and workmanship skills alongside being able to work independently and manage deadlines while collaborating with colleagues.

Despite my intermediate experience, I am always willing to learn more and I am fully committed to working in the software development industry.

Key Achievements

- Created a python-based RPG game utilizing Python, improving my problem solving and debugging skills with python.
- Created a calculator and a weather forecaster utilizing JavaScript, HTML and CSS to enhance front-end development skills.
- Took part in a group project that involved creating a school database using MySQL improving my teamwork and database knowledge.
- Had a chance of playtesting a game: **Wyrd Waters**

Technical Skills

Main duties:

- Logistics & scheduling management
- House-keeping
- Moving small/medium and large objects from one location to another whilst being on my feet
- Following clear and precise instructions
- Dealing with customers and adhering to health and safety protocol
- my supervisors described my job performance as a great asset to my school teachers

Interests, Hobbies

Coding: I am passionate about coding and problem solving. I am actively working and improving on my coding projects as I am aiming to test and improve my skills on other coding languages.

Video editing: on occasion, I plan out and create videos using the DaVinci software and post them on my YouTube for fun.

Gaming: In my spare time I like to play video games, the genre usually varies but I do favour role playing games.

Reading and Writing: I read from all media books, comics and manga, both physical books or online. From time to time, I write notes in a notebook on the kind of issues I find interesting, putting my worldbuilding thoughts on paper.
